PRINTING ISSUES?

NO PASSWORD IS REQUIRED TO PRINT any or all of this document. Please try the following ideas when troubleshooting any issues you may encounter. Most often, printing issues are related to a few common software issues, which can be resolved easily.

If you are still unable to print, please contact me at laura@cultivatingcriticalreaders.com. This is an easier method of communication for printing issues than the Q&A on TPT because of the ability to attach screenshots.

Printing Troubleshooting:

1. Open the file with Adobe Reader and print from there. Printing with other software, specifically “Preview” on a Mac, has been known to cause issues. Most often, when trying to print a few pages from the document with Preview, a message pops up that a password is needed to print. This is an error on the part of the program. No password is needed to print. Printing from Adobe should resolve this issue.
2. The same can happen when you open the file in the browser and attempt to print from there. Opening the file in Adobe and printing from there should resolve the issue.
3. If you are having trouble printing from Adobe, check to see that you have the most updated version of Adobe Reader. Once you have updated, reopen the file and retry printing.

If you are still having trouble printing, please email me at laura@cultivatingcriticalreaders.com. I’ll be happy to help.
